Key Performance Areas

As Director I am responsible for the day to day running of the company which includes scheduling budgeting invoicing etc.

As Post Production Supervisor I am responsible for the post production process, during which I maintain clarity of information and good channels of communication between the producer, editor, supervising sound editor, the facilities companies (such as film labs, CGI studios and negative cutters) and the production accountant. My role is pivotal in ensuring that the film's post production budget is manageable and achievable, and that all deadlines are met. I also manage the scheduling of the freelance editors, their contracts and the scheduling of all the post production elements when it comes to post production on the films and tv series we handle.
